Information

1.

an aluminum factory was being built in Poland."

2. It was hoped that it would go into production about March 1955 and there may be thereafter occasional parcels of 100 tons which they proposed to sell through the East/West Trader, f.o.b. Gdynia.³

[] there would be no further fuss about documents then and [] the East/West trader could sell the aluminum to China or any other Satellite country against dollars.

Comment. The factory referred to is probably the much-publicized aluminum factory at Skawina, which [redacted] is already in production, or the plant at Kety (Cf. CS-25947a), which is in the process of construction.

Comment. It is presumed that this hint of a possible export surplus of aluminum from Poland is a fabrication, designed to give a plausible excuse for the re-export from Poland to China of aluminum obtained from Western countries.
